Joe Loughry

(At Lockheed, our code was pen-tested by NSA's tame hackers; it was my job to frustrate those people.)

Email: Joe.Loughry@gmail.com   Phone: +1 (720) 277-7800   Blog: `https://cnadocs.com`

Research Scientist   `https://netoir.com`   2017–present

Building prototype for radically new low cost high assurance cross-domain solution inherently immune to malware. Hardware/FPGA, formal methods implementation from a security-approval–forward basis. Foreseeable applications include healthcare, finance, international, & intelligence community.

Visiting Assistant Professor   *University of Denver*   2016–2017

Taught computer security, programming, and ethical hacking. Lecture and laboratory demonstration in cyberweapons, counterintelligence, and TEMPEST countermeasures. Advised students in independent study and for publication.

Consultant   *C&A Docs, Inc.*   2015–2016

Secret-and-Below Interoperability (SABI) certification testing of two new cross domain solutions (CDS) for a developer in the D.C. area. Lots of experience with NIST 800-53 security controls: selection and arguing them with the certifier. Advising on likely certifier directions and anticipating certifier moves. Writing documentation to continually evolving requirements. Vulnerability analysis.

Postgrad Researcher   *University of Oxford*   2007–2015

Discovered methods to control the schedule and predict the outcome of security Certification and Accreditation (C&A) testing of cross domain solutions and cross domain systems for Intelligence Community (IC), collateral, and international environments, with applications in the area of privacy protection of Electronic Health Record (EHR) systems.

Information Assurance Engineer   *Lockheed Martin IS&GS*   2006–2012

Proposed and won $968,000 Air Force Research Laboratory contract for probabilistic redaction system; R&D project completed on time and under budget. Wrote the Security Target for Common Criteria (CC) evaluation of Radiant Mercury[TM]. Built comparison tool for common international security accreditation standards for F-35 Joint Strike Fighter. Primary interface with UK's GCHQ.

Senior Software Engineer   *Lockheed Martin Missiles & Space Co.*   1998–2006

Invented nested digital signatures for satellite imagery files—U.S. patent no. 8,793,499 issued. Discovered the optical TEMPEST effect and its countermeasures—U.S. patent no. 6,987,461. Software developer and security engineer with responsibility for the real-time performance of Radiant Mercury[TM] on the B-2 stealth bomber: embedded UNIX, built-in test, and bare metal programming.

Security Vulnerabilities Discovered

- Silent reversion to insecure defaults in Mac OS X 10.10 'Yosemite' `/etc/sshd_config` file, 2014.
- Unlimited password retries permitted in Trusted Solaris 8 HW 2/04 Certified Edition, 2006.
- Light emitting diodes leak information (a side channel) from data comms: CVE-2002-2447.
- Privilege escalation in `crontab` yields root shell on Trusted Solaris 8 version 4/01, 2000.
- Time-of-check/time-of-use gap is exploitable in EEPROM of Sun Microsystems hardware, 1999.
- Full control of Trusted Path indicator from an unprivileged process, Trusted Solaris 2.5, 1998.

Leadership, Proposal Wins, and Funding

- Principal Investigator for "Probabilistic Redaction", USAF Rome Laboratory contract no. FA8750-09-C-0006, period of performance 2009–2012; completed on time and budget.

Side Projects

- Bare-metal RTOS kernel for the Raspberry Pi: a bootable kernel in 160 bytes of object code.

Refereed Journal Publications

- "Information Leakage from Optical Emanations" by J. Loughry and D.A. Umphress. *ACM Trans. Info. Sys. Security* **5**(3) pp. 262–289, 2002.

Peer-Reviewed Conference Presentations

- "Optical TEMPEST." Accepted *EMC Europe 2018*, Amsterdam, 27–30 August, 2018. In press.

- "A Model of Certifier and Accreditor Risk Calculation for Multi-Level Systems." *Proc. 13th IEEE International Conference on Technologies for Homeland Security (HST'13)*. Boston, Massachusetts, 12–14 November, 2013.

- "Information Asymmetry in Classified Cross Domain System Accreditation." *19th Comp. & Elec. Sec. Appl. Rend. (C&ESAR 2012)*. Rennes, France, 20–22 Nov. 2012, pp. 19–28, 2012.

- "Unsteady Ground: Certification to Unstable Criteria." *Second International Conference on Advances in System Testing and Validation Life Cycle*. Nice, France, 2010.

- "Use of XML in the Specification and Development of a New High Assurance Controlled Interface." *Proc. 2nd Network Centric Warfare Conf.*, Washington, D.C., 22nd Jan. 2003.

Open Source Software Contributions

- Bitcoin Core: `https://github.com/bitcoin/bitcoin` (2016) *pull request accepted and merged.*

- Terence Eden, Joe Loughry, and Bruce Nordman. *Unicode Technical Committee* (San Jose, CA: February 3–6, 2014) `https://github.com/jloughry/Unicode/#readme` *added the IEC 60417-5007, -8, -9, and -10 (ISO 7000:2012) and IEEE-Std-1621:2004 symbols to Unicode 9.0.*

- OpenSolaris: `http://www.opensolaris.org` (2006) *found a bug in password retry limit of Solaris 8, Solaris 10, and Trusted Solaris; patch provided to Sun Microsystems and accepted.*

- The FreeBSD Project: `http://www.freebsd.org` (1999) *new console screen saver based on Wu's fast anti-aliased line drawing algorithm in FreeBSD 3.2.*

- Fetchmail: `http://www.fetchmail.info/` (1998) *patch to handle multi-homed machines.*

Other Published Reports

- "Efficiently enumerating the subsets of a set" by J. Loughry, *et al.* (in preparation).

- "Probabilistic Redaction" final technical report. US Air Force, Rome, New York, 2012. Available from the Defense Technical Information Center (DTIC), Washington, D.C.

- "Subsets of an 8-element set in order by number of elements in each subset." *The On-line Encyclopedia of Integer Sequences*, AT&T Research, 2003.

- RISKS *(ACM Forum on Risks to the Public in Computers and Related Systems)* vols 17.31, 21.94–5, 22.81, 24.07, 24.22–3, 24.55, 24.87, 25.73, 26.46, 27.19, and 28.02.

Education

- Doctor of Philosophy (D.Phil.) in computer science, Oxford.

- Master of Software Engineering (M.S.E.), Seattle University.

- Bachelor of Arts (B.A.) in mathematics, University of Colorado.

cnadocs.com/pub.txt

Blog, Social Networks, Community

- Technical musings on security, cross domain solutions, and math here: `https://cnadocs.com`

- Mentored high school students from Cherry Creek High School (ethical hacking, responsible disclosure), Grandview High School (operating systems), and Mountain Vista HS (digital logic).

- LinkedIn: `https://www.linkedin.com/in/jloughry/`

Officerships and Committee Work

- President of PhD Jury, joint thesis defence, Colorado State University and Telecom Bretagne, 2016.

- Co-organiser of a public debate between Dr Aubrey de Grey and Prof. Colin Blakemore, chaired by Professor Sir Richard Peto, in the Sheldonian Theatre, Oxford, 2012.

- Chair of the OXFORD-CS-2011 Conference Programme Committee.

- Member of the COMLAB-CS-2010 and COMLAB-CS-2009 Programme Committees.

- President of the Oxford Lyceum, 2009–2015.

- IT Officer, Oxford University Scientific Society, 2009–2015.

- Treasurer of the Oxford Lyceum, 2007–2009.

Community Outreach and Public Involvement in Science

- Advised independent study MSc student submitting a paper to the ACSAC 2017 conference.

- Mentored high school students from Grandview HS, Cherry Creek HS, and Mountain Vista HS on projects including responsible disclosure and a new RTOS for Raspberry Pi hardware.

- Interviewed on Ted Conti's podcast, 2017.

- Delivered a public lecture for the University College on 'Things you need to know about cyber-security now more than ever', 2017.

- Interviewed in the *Denver Post* for a story about DU's new cybersecurity master's degree, 2016.

- Interviewed on BBC Radio 5 'Outriders' programme, 2014.

- Interviewed on BBC Radio 4, 2002.
